TO PROTECT THE PRESIDENT. SECRET SERVICE OFFICERS ON DUTY AT GRAY

Buzzard's Bay, Mass., June 11.—Matters point to the early arrival of President Cleveland. It is not thought, however, that he will reach here before Thursday morning. At the request of his friends the President has decided to have some Secret Service officers here, and they are now on duty at Gray Gables. Private Secretary Thurber's family, except Mrs. Thurber, arrived at Marion this noon from Washington, and Mrs. Thurber will come later.

The little girl, who is six years old, was playing about the yard of her home in Hasbrouck Heights, N. J., yesterday morning, and ventured close to a big savage dog, which was tied to a post. The dog broke his chain and made for the little girl. The year knocked down, and the anipaws on the breast of the child, and began to attack her on the body and arms. Some neighbors of the Blankenburghs saw the dox rush at the child, and taking clubs went to her assistance. It was some time before they succeeded in heating the beast off.

The father of the girl was not at home when the animal attacked her. As soon as he heard of the unhappy affair he seized a revolver and killed the dog. Then he hurried with the child to this city.

CHARLES WILSON NOT TO DIE.

GOVERNOR MORTON COMMUTES HIS SENTENCE

in September, 1894. The Governor filed the following

in September, 1894. The Governor filed the following memorandum:

Charles F. Wilson was jointly indicted with his brother Lucius for killing James Harvey, a police officer of the city of Syracuse, on July 21, 1893. It was conceded on the trial to the shot which killed Harvey was fired by Indius Wilson while the brothers were attempting to escape from the officer who had then under arrest, but Charles was convicted under a charge of the Judge to the effect that if the snooting was in pursuance of an agreement previously made between the brothers to resist to the taking of human life, if necessary, any attempt to arrest or detain them, the jury would be justified in finding Charles guilty as if he personally had fired the shot.

Although the Judgment was affirmed by the Court of Appeais, the sufficiency of the evidence to sustain a conviction upon the grounds stated in the fudges were of the opinion that the evidence furnished no sufficient basis for the charge given, and were in favor of reversing the Judgment for that reason. With such a division of the Court upon the main question, the case is clearly a proper one for relief from the extreme penalty of the law Chief Judge Andrews, of the Court of Appeals, Justices McLennon and Venn. of the Supreme Court, and many leading members of the Bar of Onondaga County recommend that the sentence be commuted to imprisonment for life.

Bethlehem, Penn., June 11.—The Bethlehem Iron Company to-day announced an increase in wages of from 5 to 19 per cent in all departments affected by the reduction made in January, 1891. The increase takes effect on June 15. Two thousand men are benefited by the increase.

Lebanon, Penn., June 11.—The Bird Coleman furnaces at Cornwall, which have been idle the last two years, will be blown in to-morrow morning, giving employment to about one hundred and twenty men.

West on June 7 has been greatly exaggerated. The expedition is under the command of four Cuban leaders, one of whom, Roloff, is a Polander by birth, who has lived for some years in Key West, and is in hearty sympathy with the movement for Cuban independence. The other leaders are Sanchez, García and Castillo. The entire force is said to number not more than fifty all told. They landed in the Department of Las Villas, where quiet heretofore has prevailed, with the purpose of increasing their numbers from the native population and extending the scene of the insurgent operations, which have heretofore been confined to Santlago de Cuba.

The combination of Cleveland and anti-Cleveland leaders, it is hoped, will win. A remark made to-day by Governor Campbell criticising in an indirect way the foreign policy of the present Administration gives color to the story that he seeks new alliances.

The murderer hid after the shooting, but was soon captured and locked up. Albano, who was a nedler, had backed his wagon into the yard adjoining the blacksmith shop to have some repairs made, Sullivan's wagon being in the yard at the time. Albano asked Sullivan to move his team a little, and Sullivan, with an oath, refused. The Italian jumped to the ground, and Sullivan, it is said, struck him a severe blow under the left eye. Then the men clinched, and just as they reached the door of the shop Albano drew a revolver and fired three shors at Sullivan, the latter falling dead with a built just over the heart.

Albany, June II.—Superintendent Skinner, of the State Department of Public Instruction, has issued a Flag Day circular, in which he says:

The attention of school officers throughout the State is directed to the fact that June I4 will be the anniversary of the adoption of the Stars and Stripes as the National colors by the Continental Congress, June I4, 1775. It is known as Flag Day, and may very appropriately be observed, not only by school officers, but by the people of the State generally, in the dispiny of flags and such exercises as may be arrenged. The flag stands, not as a symbol of war, but for loyalty, love of country, law, National unity and pairiotic devotion to the Government, and there is no more fitting place for the observance of the day than in the schoolhouses of the State.

Crapo and Oliver Prescott, of Massachusetts, and 250 other persons, living in Michigan. The Government claims that, under the railroad land grant of 1856, certain lands were accepted by the Flint and Pere Marquette Company, the Government reserving thousands of acres. The Government claims that the railroad company, not recognizing the reservation, went ahead and sood these lands and used the money. The Government asks the Court that it be entitled to recover from the railroad company and the other defendants, and that all the defendants be restrained from removing trees and timber or encumbering the property until the suit is determined. The amount of money involved is not stated in the bill of compaint, but will reach an enormous sum, perhaps into the millions. The bill is signed by Richard Olney, as Attorney-General.

THE WILKESBARRE DYNAMITERS CAPTURED.

Wilkesbarre, Penn., June II.—One of the most important arrests in the history of Luzerne County was made at an early hour this morning by Detective James O'Brien, of the Lehigh Valley Railroad. The prisoners taken into custody and sent to jail are Frank Shaffer, George Jordan, James Miller, Sarah Miller and Hestor Bress, all negroes. They are accused of one of the most flendish crimes ever committed in this county, the wrecking of the Hungarian shanty on the mountain cut-off, a few miles from here, on October 28, 1891. Sticks of dynamite were used; wires were run into the woods and attached to a battery, and when the key was touched an explosion followed, sending a boarding-house with all its inmates into the air. Four peoule were killed at the time and eight seriously injured. They were all Hungarians, Shaffer made a clean breast of the whole affair, and implicated all the others as accomplices. He says that the flendish act was done for the purpose of robbery.

Do not forget that the only course adequate to a removal of the evils we have sought to depict rests in your hands. Unless the bill is signed and the transfer to the State he made, no real or large improvement can be expected, because no money has been appropriated by the Board of Estimate and Apportionment, except for maintenance, the city authorities believing that the State would assume charge of the institutions during the present year.

Chapter \$81. Incorporating the United States Validity Guaranty Company of New-York.
Chapter \$85. Providing for a drawbridge on the Harlem River in New-York City, between East One-hundred-and-forty-ninth-st.

The Governor must dispose of the remaining thirty-day bills by Saturday. The number of measures awaiting his consideration is 155. Of these twenty-nine are New-York City bills. Thus far Mayor Strong has returned fifteen local bills without his approval.
The Governor had many callers to-day, including Lieutenant-Governor Saxton, Senators Cantor, Owens, Lexow and Donaldson, William Sheehan and several Assemblymen, presumably in the interest of legislation in which they are interested.
Thus far the Mayors of cities have failed to sat on thirty-three bills which were sent them.
